

Framo 80

Flexible throughout the job

Framo completes the Sikla product range enabling volumetric carcass assembly within industrial projects. Now there is for the first time a wholistic system on the market covering all areas of application. Framo is fully compatible with all other Sikla system parts.

*Multidirectional,
Flexible
and Time-Saving*

Framo 80

*Multidirectional Flexibility
Minimised Assembly Time
Approved Safety*

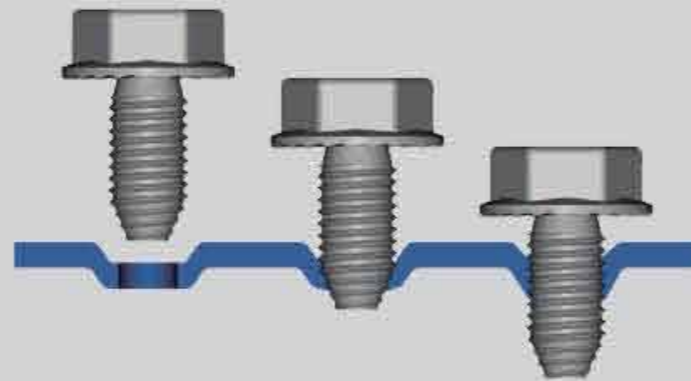

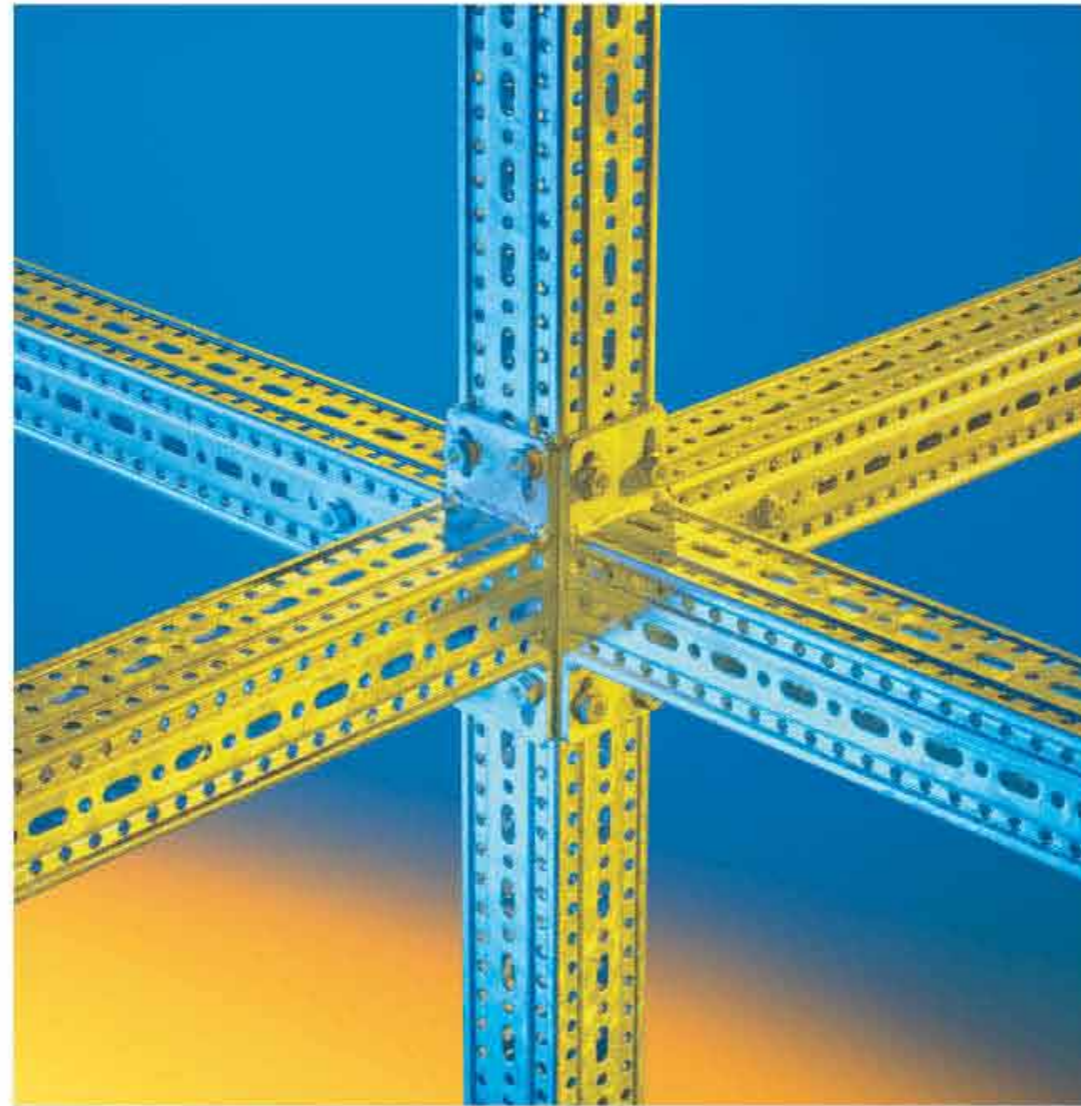

Framo 80 is a multi-functional support system for the modular construction of framing solutions. Framo 80 allows multi-directional connection possibilities. The box section profile has a high torsional resistance and stepless adjustment capability for connecting members. The innovative connection technology guarantees maximum installation efficiency.

Applications

- ◆ Skids
- ◆ Pipe supports
- ◆ Walkways/staircases
- ◆ Tank Stands
- ◆ Temporary structures
- ◆ Stillages
- ◆ Cable ladders & tray supports
- ◆ Equipment stands
- ◆ Conveyor supports

Benefits

- ◆ No Hotworks
- ◆ Quick Installation
- ◆ Minimal Skills required for installation
- ◆ Pre engineered components
- ◆ Engineering drawings and calculations can be provided
- ◆ Readily available components off the shelf
- ◆ Easily modified on site if required
- ◆ Flexible

Time-saving safety-bolt-connection based on proven self-cutting-technique

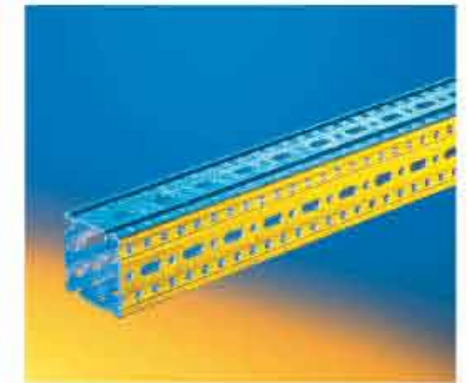

- ◆ Easy bolt assembly without need for nuts
- ◆ Swarfless, cold-formed internal thread
- ◆ Self-locking anti-vibration characteristics
- ◆ Single type of bolt for all applications
- ◆ Special locking-serration providing additional safety
- ◆ Dacromet-coating for sustainable anti-corrosion protection

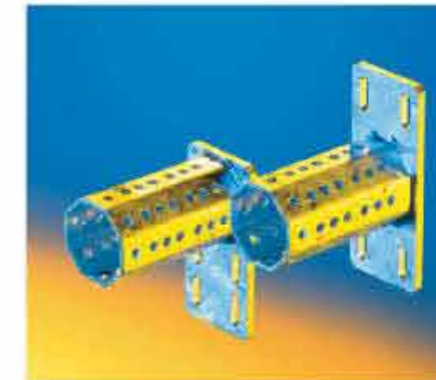

Compact range of flexible industrial framing solutions

Self-forming screw FLS 80

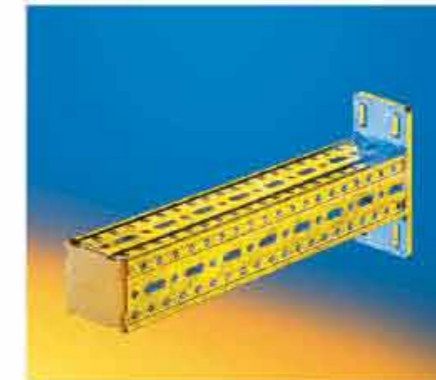

Beam Section TP F 80

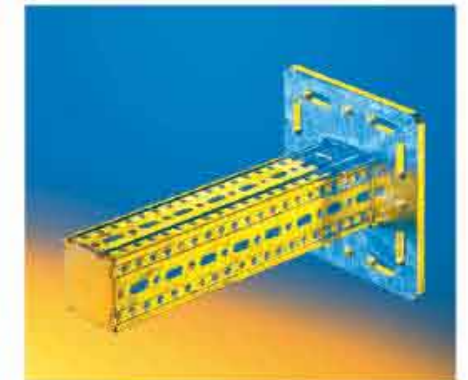

End Support STA F 80

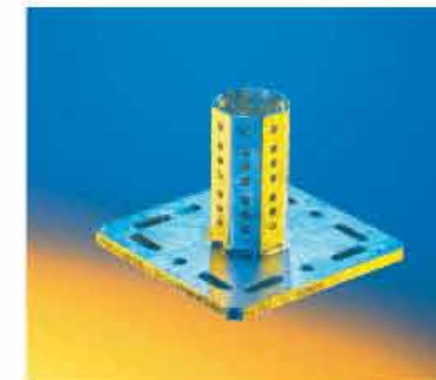

Channel Adapter SA F 80

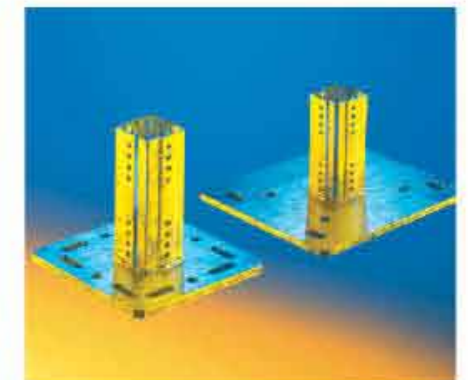

Cantilever Bracket AK F 80

Beam Bracket TKO F 80

End Support WBD F 80-T
