

## Gasket and Bolt Sets

Copamate Products provides pre packed Gasket & Bolt Sets to suit a variety of applications for you convenience

### Features & Benefits

- Save Time - eliminates counting & chasing shortages
- Convenient - no waiting, no fuss
- Easy - 1 set = 1 flange joint
- Economical

### Bolt set applications

Standard set 2 - steel flange to steel iron flange

### Bolt Set Standards

Australian - Table D, E

British - DIN16

\*\*\*Other standards & sizes available\*\*\*

### Bolt Set Sizes

\*DN40-200

### Material

**Fasteners**, nuts & washers - galvanized  
(Optional Stainless)

**Gasket** - fibre or natural rubber

### Bolt set Contents

1 bolt, 1 nut, 2 washers per hole & 1 gasket

### Working temperatures

Fibre 160°C

Natural rubber 80°C

### product range

- flanges, slip on, blind and screwed - mild steel bronze and stainless, special
- gaskets, gasket & bolt sets, test plus
- probes and extension pieces
- valve locking devices
- name tags

## Gasket and Bolt Sets

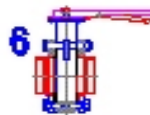

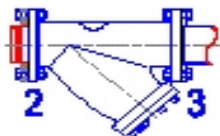

copamate Bolt Set List		
Set Number	Application Description (Used for)	Fastener Type
Set 1	Steel Flange to Steel Flange	Bolt
Set 2	Steel Flange to Iron Flange - Strainer	Bolt
Set 3	Iron Flange to SOW (Slip On Weld) Flange	Bolt
Set 4	Flange to Lugged Butterfly Valve	Bolt
Set 5	Steel Flange to Wafer Butterfly Valve	Stud
Set 6	Steel Flange to Wafer Butterfly Valve	Through Bolt
Set 7	Steel Flange to Check Valve	Stud
Set 8	Steel Flange to Check Valve	Through Bolt

### Materials

Hex Head Bolts, Nuts & Washers - Mild Steel galvanised.

Gasket Material – Natural/Insertion Rubber, Fibre

Above-mentioned bolt sets and fastener can be used with Rubber Ring, Rubber Full Face, Fibre Ring and Fibre Full Face Gaskets.

## Insulated Bolts and Washers

### Provides insulation between metals

Insulated bolts and washers are used to prevent electrolysis occurring between different metals

### Why use

- prevent electrolysis between metals
- prevent corrosion
- alignment between differential metals
- increase the life of installation

### Applications

- flange to flange
- steel pipe and copper products

### Material

Polyethylene washes

### Available sizes

M16, M20, M24
